

One of Australia's leading research & development companies simplified their business processes through iForms.

About Australian Wool Innovation Limited

AWI is a not-for-profit company that invests in R&D and marketing to increase the long-term profitability of Australian woolgrowers. Based in Sydney, they have offices in key markets around the world to help increase the global demand and market access for Australian wool.

They are responsible for delivering research, development and marketing for the Australian wool industry.

ConnektHub Solutions first customer to use iForms, May 2016.
